

**Message from Craig Ondarchie MP
Shadow Minister for Investment, Jobs & Trade**

JET Helping Hands - *Vision*

It is community events like *Vision*, which encourage wider community engagement, promote awareness, mutual respect and the understanding of cultural diversity.

Vision provides Victorians with the opportunity to experience our wonderfully different cultures, whilst also providing the opportunity to give back to those in need.

JET Australia Foundation is a non-profit organisation and is well recognised for its many community services across Australia, having been awarded for Excellence in Community Services by the Victorian Multicultural Commission on three occasions.

I am proud to support JET Australia's new initiative, JET Helping Hands. With fundraising already underway, supporting a School for the Blind that is run by His Holiness Sri Chinna Jeeyar Swamiji and to help Australian farmers who have been affected by the severe drought.

JET Helping Hands has committed to allocating funds for the direct relief of poverty, sickness, disability, destitution or helplessness, giving freely to those who are in need of such support in the community.

I commend Satya Ramadugu, President of the JET Australia Foundation – Melbourne Chapter and the committee volunteers involved, in organising JET Helping Hands inaugural event. I wish the event every success.

With warmest regards,

A blue ink handwritten signature of Craig Ondarchie MP.
